## About Care2Learn

Since 2000 Care2Learn has set the standard for excellence in online education solutions for the post-acute healthcare market, which includes home care and hospice facilities, as well as rehabilitation centers, nursing homes, and assisted living facilities.

Our comprehensive course library includes approximately 500 board-certified courses delivered to more than 320,000 healthcare professionals in all 50 states.

Our enterprise services include continuing education management services, customized course development, client-branded online universities (private label), and outsourced compliance management services.

## Maximize Your Success in the Post-Acute Care Industry

Does your facility have what it takes to emerge as a leader in the growing post-acute healthcare industry? Online education and compliance training provides a professional advantage and empowers your employees with the skills they need to succeed. Partner with Care2Learn and let our extensive home care and hospice curriculum grow your business through the power of online learning.

## Relevant, Affordable Training Tailored to Your Needs

Care2Learn is the leading provider of online continuing education (CE) and professional development courses for the post-acute healthcare industry. Our customizable online universities can be designed for 50 to 50,000 users and have the potential to reduce your training costs by 40 to 70 percent, as well as give you an edge in attracting and retaining the best employees.

A fully-hosted online university lets you improve the breadth and scope of your education plan and allows you to easily track and monitor employee training progress. Presented in an easy-to-use, interactive format, our relevant and engaging course material makes education compelling and helps you build a more valuable workforce for your patients.

*"Compliance and consistency are what I see as most valuable with our online university. I implemented our online university immediately when I came on board to get the same training to every employee. We were able to effectively track compliance and usage, and this significantly impacted the bottom line."*

*Bill Edwards  
COO, Guardian Healthcare*
