## About Care2Learn

Since 2000, Care2Learn has set the standard for excellence in online education solutions to the long-term health care market, which includes nursing homes, assisted living facilities, rehabilitation centers, and home health care and hospice facilities. The Care2Learn course library includes approximately 500 board-certified courses delivered to more than 320,000 health care professionals in all 50 states.

We also deliver corporate learning services to large enterprises, such as Shoreline Healthcare Management, Nexion, Intrepid Home Health Services, Harbor Retirement Associates, Functional Pathways, Visiting Nurse Association, ABHOW, St. Leonard, and Carespring. Our enterprise services include continuing education management services, customized course development, client-branded online universities (private label), and outsourced compliance management services.

## Enterprise Solutions to Help You Grow

Branded online universities, supporting services, and programs

### Reach Higher levels of Success

One Employee - Or One Workforce - at a Time

If you are a healthcare enterprise, you can provide professional development and continuing education more effectively and efficiently with an online learning solution. When you partner with Care2Learn – the industry’s leading online healthcare provider –you give your employees convenient access to the knowledge they need at your own online university. Presented in an easy-to-use, interactive format, Care2Learn’s engaging and relevant courses make education compelling and help you build a more valuable workforce to care for your patients and residents.

An online university lets you improve the breadth and scope of your education plan and gives you the tracking and reporting tools to monitor your employees’ training progress. Our customized online universities can be designed for 50 or 50,000 users, have the potential to cut your training costs by 40 to 70 percent, and give you an edge in attracting and retaining the best employees.

“Compliance and consistency are what I see as most valuable with our online university. I implemented our online university immediately when I came on board to get the same training to every employee. We were able to effectively track compliance and usage and this significantly impacted the bottom line.”

Bill Edwards  
COO, Guardian Healthcare

### Real Benefits for Your Employees and for Your Enterprise

With Care2Learn’s wide variety of eLearning services, an online university is a flexible tool that serves your education and training needs and also fits your budget.

#### Products and Services Start now with an interactive Elearning tool:

#### Enterprise Benefits Build a top-level workforce in a cost-efficient manner:

- Augment employee skills and enhance productivity
- Supplement knowledge of your services offered
- Improve communication effectiveness
- Distribute content consistently 24x7x365
- Deliver education at significant costs savings over traditional methods

### A powerful impact when providing education online

You can be online and addressing issues like compliance and survey deficiencies in a few weeks, not months.

Care2Learn is comprised of healthcare professionals who have lived in your world and know the importance of staying on top of issues specific to long-term care. We specialize in delivering courses that help skilled nursing facilities, hospice, rehabilitation providers, and home care administrators stay in compliance and remedy survey deficiencies, and we update them automatically. Your online university offers a large course library that is searchable in a variety of ways - by compliance issue (F-tag/G-tag/L-tag), by license, by category, and by keyword. Best of all, you can be up and teaching in just a few weeks. Show your employees and residents that you’re an education leader and enhance your reputation and organization in the process.
